“Who Else Wants To Make A 3,318% Return On Investment?”

Section 1

If you're looking for a banker or two, to get you a win at the races, and consistent returns every month, this is going to be the most important page you'll ever read.

Here's why...

What if you gave me £4.95, and I gave you back £169.55, how many times would you take that deal? Every day?

It's an all too familiar feeling – placing a few bets and losing the lot.

Just imagine...if you could walk into the betting shop with a crystal ball, knowing that whatever happens, you will have the edge over the field every time.

In every battle, the winners are the people who have some secret resource, hidden from the competition, which gives them an unfair advantage over everyone else.

Your Crystal Ball is me - Robin Bliss from Value Racing Tips, and I'm going to give you the tips you need to average £169.55 in pure profits per month.

Section 2

Here's a few facts on why you should listen to me:

- Since October 2013, the profit level of Value Racing Tips has been moving steadily upwards (see graph below). No dips, no barren stretches, just consistent wins
- In fact – I have been making a full time income for the past 20 years – simply by betting on horses using my secret method
- Follow me and you'll enjoy a healthy 22.77% strike rate across all your bets – you can't do that on your own
- You'll be given overpriced selections which you can capitalise on to get the edge over other every other gambler in the shop
- If you have started following Value Racing Tips since October 2013, using just £10 per point stakes, you would have amassed a net profit of £2,937.40 – without even a hint of risk

- I have the skills, knowledge and most importantly – the system to pick winners like Vitat Rex at Southwell, on 25th March, paying you a £60 profit
- Or how about Bint Dandy at Chelmsford which would have made you a tax free profit of £35 on 26th March
- Then there was Rosenbaum at Wolverhampton on March 19th, paying you a £40 profit
- Then there's the simplest and most obvious reason of all – I have reliably led Value Racing Tips members to an average of £169.55 every month
