Subject: Welcome aboard, Name

Hi Name;

Thanks for joining us on this brilliant adventure! I'm so glad you decided to join us, in case you haven't read the report yet, here it is again:

Link

Now, you probably have some questions about all this, so I've answered some of the most common questions people ask me:

Q. What's this secret you're revealing about the Internet Marketing gurus? Won't they send their lawyers after you?

A. The secret is very simple - they are simply not teaching you the easiest and most profitable business models - they want you to believe you can become a millionaire by selling \$20 ebooks. And I don't know if I'll get any letters from lawyers, I haven't yet, but I figure that even if a few thousand people read this, it'll hardly make a dent in their businesses. I mean, I'm just one person here, up against their media empires.

Q. If Amazon Selling is so easy and profitable, why are you telling us about it at all? Why not keep all the sales for yourself?

A. That's a great question, but in reality, there's plenty to go around for everyone - I'm just selling a handful of products, nothing special at all, but you saw the screenshots of my Amazon accounts on the website, I'm making a full time living from a tiny segment of the market.

Q. Why can't you reveal the products you're selling?

A. For the same reason I would tell YOU not to reveal your products - you don't want any more competition that necessary! Look, I can make you this promise: If you stick with me, and we work together later on down the track, and I honestly hope we do, I'll be happy to take you through all the products I have for sale, in detail. It is my genuine intention to work closely with you, personally, soon, and I'm looking forward to it.

Q. If you're selling physical products, isn't that going to be expensive - and a lot of hard work? I don't have much spare time, or cash to invest.

A. Believe me, as a mum of two young children, I don't have much spare money or time myself! This is why I run this kind of business - I can find the products, have them sent directly to

Amazon, and they store and ship the products for me, and it's all very cheap to do, and involves very little work from me. And it'll be the same for you.

Q. There are a few US based people teaching Amazon selling - how are you different to them?

A. We focus on the UK and European markets, believe me, Amazon in the US is absolutely saturated with the students of those marketers - but they wouldn't know how to deal with us, how different we are, and until now, the only information available on Amazon selling was from the US.

All these questions and more are answered in detail on the website report I showed you earlier - simply go to [LINK](#) and read through the report, and act on it's advice. All my screenshots are there so you can literally look over my shoulder, so you can be certain I am doing this now, and so can you.

Warm regards,

Jessica

P.S. I'm interested in any feedback or questions you may have - simply reply to my email and ask me anything! This isn't some computer system email you - I personally answer all questions

Subject: We miss you!

Hello again Name,

We miss you!

I remember you watched my video a few days ago, and asked for the Amazon report. I hope you've had time to read through it, in case you haven't here's the link again:

LINK

Now, if you're not quite sure who to listen to when it comes to selling on Amazon UK, and you want to know who the 'fake it until you make it' self-proclaimed gurus are, here's 3 warning signs to look out for:

1. No PROOF - Anyone who tries to advise you of how to make serious money on Amazon should be able to show you definite proof of their earnings - if they try to skip around the subject, or ignore it altogether - you better ignore THEM! This is why in the report at LINK, I have included several screenshots I've taken directly from my Amazon account - I haven't 'blacked out' any important details, it's all there for you to see. This brings me to my next point:
2. No RECENT results - If they show you results from a year ago or more, but can't show you anything recent - it probably means they haven't been making any money recently! A lot of experts talk about results from last year, or 5 years ago, but the online landscape is changing so fast, what worked for them 5 years ago is irrelevant (Another great reason to stick with us - we'll keep you up to date on all the changes). The screenshots on the report are all DATED - so you can see for yourself I'm doing this RIGHT NOW
3. Promises of Instant Riches - Those who would try to sell you anything to make a quick buck tend to make these kinds of promises - even though they're just all hot air. There is no magic software which makes you money just by pushing one button - otherwise, why would anyone share such a valuable secret, other than with their loved ones? All you'd need to do is hire 100 people to just keep pushing that button, and pretty soon you'd be the richest person on earth.

You know, if I chose to do business that way, I could make a lot more money. It's sad to say, there are many people out there who will believe these outrageous claims, but they tend to end up with tons of software on their computers, hard drives full of eBooks and videos, but empty bank accounts.

I'm not going to insult your intelligence that way - there is some work involved in getting up and running, but firstly, it's quite easy to perform, we give you all the guidelines and advice you'll need. Secondly - it's absolutely worth it! As you can see from the report at LINK, I started off small, just one product, only a few sales, but I built it up into the well oiled machine it is now - and there's plenty of room to grow.

So there are 2 choices you have in front of you:

1. You can go on trying to create miracles, following the gurus and hoping to someday become one of them, selling false hope to other wanna be gurus. My guess is, if you're reading this, you're not really interested in doing so...or...
2. You can click here right now:

And change your online life forever. The report has all the information you'll need, and I'll see you on the other side.

Warm regards,

Jessica

P.S. If you've read this far - you must be interested in finding out how you can get results like me with Amazon UK FBA - it's time to find out! Go to LINK and read the report, then act on it's advice

Subject: Hey, what happened?

Hi Name,

I'm writing to ask you - what happened? We met the other day, when you watched my Amazon UK video, and asked for the report at LINK. But you haven't joined us at Amazon UK Unleashed, and I was wondering what we did wrong?

Look, I understand - life gets in the way. We all get busy. Emails seem to become less important the older they are. Even if we somehow notice them amongst the clutter.

But this is the problem - every so-called Internet Marketing Guru is clamouring for your attention, until you are pulled in a million different directions at once. It's no wonder most people never make a single pound online.

Here's the real secret to online business success: Focus. Concentrate on getting one business up and running, a business with genuinely valuable products people want to buy. Don't go around trying to implement every expert's advice to get ebooks written and videos made, you'll just end up with 42 ebooks and videos but no system to organise them, even if you did somehow write a best seller.

People are out there buying physical products right now, and having them sent to their homes and offices, and you no longer have to own a production line or set one up in your home - the

report at LINK shows you exactly how to leverage other people's factories and Amazon's unique and powerful FBA program.

Look, I want to help you succeed on Amazon UK - so here's my way of helping you to do just that - if you have any questions about the system, Amazon, FBA or anything at all, please reply to this email address, and I'll provide you with as much information as I can. No investment required, no obligation at all, and it'll be me personally answering you, not an admin worker who's never sold a product in their lives.

So go ahead, after you read the report at the link below, please email me your question and I'll answer it, hopefully within a day or two at the most. (Please remember - I may be 30,000 feet in the air when you email me - so please bear with me!)

Read the report here: [LINK](#)

Warm regards,

Jessica

P.S. I'm doing these numbers on Amazon UK with only a few products - just imagine what you could achieve yourself...get all the details now at [LINK](#)

Subject: Really, Name - I'm confused

Hi Name

Have you been getting these emails? Or are you just deleting them? I know - not many emails that you get throughout the day are worth keeping, are they? But if you give me a minute, I'll prove to you that mine are.

I want to give you some real content here - so I'm going to talk about some of the other Amazon products out there. And there are more and more popping up each day, so your choices are getting harder and harder to make.

Understand this: Just about all Amazon related courses out there teach you either about being an Amazon Affiliate, or if they do teach about physical products - they seem to advise you to scour your local discount shops, find products there, and send them to your local FBA warehouse.

The problem is, your product is not unique, You'll be fighting against established sellers with lots of reviews - click [HERE](#) and I'll show you how to start selling your very own 100% unique product which nobody else is selling - or is even able to sell once they see how well you're doing

The problem is, it can be quite a lot of work - and hard to do if you're still working in a day job - how are you going to browse shops for hours per day if you're stuck at work? Click [HERE](#) and you can find out how to find all the dirt cheap products you could ever want, in a few hours online

The problem is, some products are all about What To Do - not so much How To Do. This is because they are designed to whet your appetite, then when you realise you don't have the tools you need after all, you have to buy the next step up that guru's ladder. It is often worth the money, but I can tell you right now, when you read the report at [LINK](#) and do what it says, what you'll end up with is every single little thing you need to know, in order to get started

Because I don't like to make empty promises like so many gurus do.

Because I am walking the talk, (to use an American-ism), I'm getting the results and the report has all the proof you need to see that.

Because I want to open my doors and show you absolutely everything, and all you do is go to [LINK](#) right now and see what the fuss is all about.

Warm regards,

Jessica Wilson

P.S. If you're still getting my emails - you must be interested in this - so please go to the report on the website right now while it's fresh in your mind, all is explained there. The link is [LINK](#)

I'm guessing you're like me, you've been looking around at tons of online products, courses and videos, wanting to create a serious business - and therefore serious about choosing the right way to go about it, like the Amazon UK report at LINK. It's too important to trust to some snake oil seller or a self-proclaimed guru.

Here's your better deal: I'd like to offer YOU a fr-ee 7 day trial of the Amazon UK Unleashed program - just so you can try it out, see if it lives up to the screenshots you saw at LINK.

So all you do now is go to this special page:

7 DAY TRIAL LINK

And download your Amazon UK Unleashed program immediately. And if you decide to hang around us for a while, it's only after 7 days you will be charged. So there is no risk at all, when you sign up now, if you don't like what you see, you'll be able to cancel this deal at any time during those first seven days, no obligation, no hard feelings, no questions asked.
